

Accessories for Monuments

Monument Vases

Metalcraft's commitment to quality has been etched in stone with our Continental Collection, a full line of memorial vases offering a range of styles, sizes and colors. Protected by our "Granite Craft"™ coating process, the color finish is baked onto the vase for lasting durability.

All of these vases have a lifetime warranty at no extra cost.

Ceramic Pictures

Memorial Granite captures a customer's keepsake photo on a fine ceramic plaque beneath a clear, porcelainized surface that preserves the colors forever.

Our cemetery photos are guaranteed against defects in quality and craftsmanship for the lifetime of the monument or memorial to which they are attached. They are guaranteed not to fade or deteriorate. The memorial portrait will be replaced free of charge if your customers find a defect in quality and craftsmanship.

These popular ceramic color oval pictures are perfect for placing on an existing headstone, grave marker or mausoleum crypt front.
